**PUBLIC AIRPORT DISTRICT**

February 22, 2018

Board of Directors  
Santa Maria Public Airport District  
3217 Terminal Drive  
Santa Maria, CA 93455

**Subject:** 2018 Airfield Striping Project

**Discussion**

The Santa Maria Public Airport District has received four bids following our solicitation for a project to prepare and repaint approximately 145,000 square feet of taxiway and runway markings in addition to 40,000 square feet of rubber removal from the runway

This project consists of routine upkeep of the markings on the runways and taxiways to ensure compliance with the safety standards set by FAR 139 and the associated advisory circulars.

A summary of the bid results is shown below:

		Bid Amount
Cal Stripe, Inc	Colton, CA	\$ 87,506
Super Seal & Stripe	Fillmore, CA	\$ 127,192
PCI	Azusa, CA	\$ 129,070
Sterndahl Enterprises	Sun Valley, CA	\$ 199,440

**Fiscal Impact**

The lowest bid for this project was received from Cal Stripe, Inc in the amount of \$87,506. The approved budget for this project is \$75,000, resulting in a budget shortfall of \$12,506. The extra cost above the budget and original estimate is caused primarily by additional preparation work not anticipated in areas with a buildup of paint that will exceed the allowable thickness.

**Recommendation**

Staff recommends that the Board authorize the President and Secretary to award the contract between the District and the Cal Stripe, Inc. to provide painting, marking, and rubber removal for the Santa Maria Public Airport District. If approved, staff has prepared a budget deviation to adjust the budget for this capital item.

Please let me know if you have any questions:

Sincerely,

A handwritten signature in blue ink, appearing to read "Chris Hastert", with a long horizontal flourish extending to the right.

Chris Hastert, CM  
General Manager
