Santa Maria, CA 93455

March 20, 2019

Project: 2019 Safety Project: Obstruction Removal  
Subject: Final Acceptance

Dear Mr. Hastert:

On Friday morning, March 8, 2019, the 2019 Safety Project: Obstruction Removal, was inspected for a review of progress on the project. To the best of my knowledge, information, and belief, based on this final inspection and periodic inspections by myself and other Tartaglia staff over the previous few weeks, the work of this contract is successfully complete.

#### Contract Time:

The contract had a specific calendar day performance requirement. Day 1 was Wednesday, February 20, 2019, and all work was to be complete by the end of the day, Friday, April 26, 2019. Based on this final inspection, the contractor has performed in timely manner.

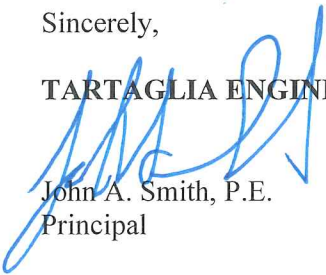

#### Compensation:

The contract with Whit's Turn is in the amount of \$40,830.00. During the course of the work, Tartaglia Engineering, based on a fee proposal from Whit and verbal authorization from the District, authorized the contractor to remove an additional tree, at a cost of \$1,800.00. Total compensation due Whit's Turn is \$42,630.00. Due to the informal nature of this contract, there is no retention. Please prepare a single payment check to Whit's Turn Tree Care in the amount of \$42,630.00. Attached is the Whit's Turn invoice, in the amount of \$42,630.00, approved by Tartaglia Engineering.

Whit's Turn performed exceptionally well on this project. They were both safe and assertive in their approach, provided the correct equipment and adequate manpower, and were very communicative to staff at Tartaglia and the District. I highly recommend we consider this firm for future work of a similar nature. Please call with any questions you may have regarding the project or this final acceptance.

Sincerely,

**TARTAGLIA ENGINEERING**

  
John A. Smith, P.E.  
Principal
